

Guide to Ordering IR Credit in Freddie Mac's Loan Prospector

Please refer to the following guide to order credit through Freddie Mac's Loan Prospector:

The screenshot shows the 'Request Services' page in the Loan Prospector interface. The breadcrumb trail is: Home | Help | Contact Us | Business Tools | Change Password | Logout | FreddieMac.com. The page title is 'Request Services' under the 'Loan Prospector Main' menu. The borrower information includes Loan App #, Loan Prospector ID: L109944, and Transaction ID: T100025673. There are buttons for '<< Previous', 'Save', 'Submit', and 'Next >>'. A red note states: 'Fields marked with an asterisk are always required.' Below this, there is a section for 'Order Merged Credit' with a checked checkbox for 'Merged Credit'. A dropdown menu for 'Select a credit reporting company with whom you have an established relationship' is set to 'Equifax Mortgage Services'. Another dropdown for 'Technical Affiliate' is set to 'Informative Research'. An 'Important' note asks: 'Are you resubmitting this loan? If reference may be pulled.'

Select 'Equifax Mortgage Services'
Choose 'Equifax Mortgage Services' from the credit reporting company dropdown field.
Choosing 'Equifax Mortgage Services' will ensure your credit report is processed through Informative Research.

Select Informative Research
Choose Informative Research from the 'Technical Affiliate' dropdown field.

Note: Prior to the addition of the 'Technical Affiliate' field, LP users were required to enter a Branch Code on the 'Loan File Setup' screen when ordering credit – entering this Branch Code is no longer required – selecting Informative Research from the 'Technical Affiliate' dropdown field is sufficient.

It is IMPORTANT that you complete the above two steps on each loan for which you wish to order credit from Informative Research.
